

MAN & MACHINE presents

# Slim Cool+ LP

Compact medical keyboard  
with integrated  
Touchpad

The layout of a standard laptop keypad, but all the characteristics of a medical keyboard, that is **how the Slim Cool+ Low Profile keyboard is best described. It also offers a key height optimized for easy-wipe cleaning combined with the modern typing feeling of a laptop.**

The hygienic white keyboard is our most innovative solution for medical equipment as well as patient infotainment consoles. Rest assured, the Slim Cool+ Low Profile does not rely on a cover.

It is completely sealed to keep germs out and may be submerged for a thorough disinfection. During the process, you can lock the keyboard with its Tru Lock locking mechanism and keep the USB plug in.

## 7 Requirements for a Medical Grade Keyboard
