

e-medical BLT02 wireless keyboard

e-medical BLT02 wireless keyboard

The **e-medical Wireless BLT02** is a qualitative and reliable wireless keyboard with integrated touchpad. Completely sealed the IP67 Silicone Keyboard can be easily cleaned and is ideally suited for areas where hygiene and cleanliness are important. The optimized key height and the large touchpad allow easy and precise input. The silent and smooth keystroke offers the user a convenient operation and excellent pressure point. Equipped with multiple function keys, this medical keyboard becomes a multimedia switching center, which allows to control the basic functions of the PC even without a mouse.

Benefits:

- Wireless
- Fully sealed
- Disinfectable (IP67)
- Excellent tactile feedback
- According to EN 60601-1-2
- Silent - noiseless keystroke
- Automatic synchronisation
- According to EN 60601-1
- Working distance up to 10m

e-medical BLT02 wireless keyboard,
for sensitive areas where
hygiene is a must.
